Dear Sirs;

I would like to write and thank you for the excellent customer service and follow up we have received with the office phone system purchased from your company.

The technician that has been assisting us lately is Neil, and he has been great. Not only is the phone system you recommended for my firm a great choice, but the follow up and support received from your office staff and field personnel is the best.

Keep up the good work!

Sincerely,

Chris B. Granitz
President
