Dear Robert:

Now that you have finished installing the cameras in our building, I wish to thank you for the professional way that your company conducted yourselves. Being a property manager for thirty-eight years, it is quite refreshing to have a contractor perform his commitment in such an outstanding way. Your installing crew has performed expediently without upsetting any of the unit owners, and the quality of the pictures from the cameras were quite satisfactory. Thank you again, and please continue your excellent work.

Sincerely,

Larry Wigdor  
Property Manager
